

ASSIGNMENT PLAGIARISM DETECTION REPORT

Generated: June 15, 2026 at 03:38 PM

Total Documents Analyzed: 8

COPIED: 1

SUSPICIOUS: 1

ORIGINAL: 6

1. Executive Summary

This report presents the results of an automated plagiarism analysis performed on 8 document submissions. The system uses a 4-layer similarity engine combining TF-IDF Cosine Similarity, N-gram Jaccard Similarity, Structural Fingerprinting, and Writing Style Analysis.

Analysis Configuration

- Documents analyzed: 8
- Total pairs compared: 28
- Weights: TF-IDF 40% + Jaccard 30% + Structural 15% + Style 15%
- Thresholds: COPIED $\geq 85\%$ | SUSPICIOUS 50-84% | ORIGINAL $< 50\%$
- Supported formats: TXT, PDF, DOCX

Key Findings

- COPIED documents: 1
- SUSPICIOUS documents: 1
- ORIGINAL documents: 6
- Flagged pairs: 3
- Average pairwise similarity: 10.10%

2. Per-Document Verdicts

Final classification for each submitted document:

#	Document	Status	Copied From	Max Score
1	Resume Example 1_Google IT S	ORIGINAL	-	-
2	student_A.txt	ORIGINAL	-	-
3	student_B.txt	COPIED	student_A.txt	99%
4	student_C.txt	ORIGINAL	-	-
5	student_D.txt	ORIGINAL	-	-
6	student_E.txt	SUSPICIOUS	student_B.txt	74%
7	student_F.txt	ORIGINAL	-	-
8	student_G.txt	ORIGINAL	-	-

3. Similarity Matrix

Colour-coded pairwise similarity scores (combined 4-layer score):

	Resume Ex	student_A	student_B	student_C	student_D	student_E	student_F	student_G
Resume Example 1_Goo	-	1%	1%	1%	0%	1%	0%	0%
student_A.txt	1%	-	99%	7%	2%	74%	1%	0%
student_B.txt	1%	99%	-	7%	2%	74%	1%	0%
student_C.txt	1%	7%	7%	-	2%	7%	0%	0%
student_D.txt	0%	2%	2%	2%	-	2%	0%	0%
student_E.txt	1%	74%	74%	7%	2%	-	1%	0%

student_F.txt

0%	1%	1%	0%	0%	1%	-	0%
0%	0%	0%	0%	0%	0%	0%	-

student_G.txt

4. Flagged Pairs - Detailed Analysis

Pair 1: student_A.txt <-> student_B.txt

COPIED

Combined Score: 99.04%

- TF-IDF Cosine: 98.83%
- N-gram Jaccard: 98.36%
- Structural: 100.00%
- Writing Style: 100.00%

Likely original: student_A.txt

Likely copier: student_B.txt

Reason: student_A.txt modified 0.0h earlier; student_A.txt created first

Matched Sentences (25 found):

[81%] "Name: Arjun Sharma
Roll No: 2024CS101
Subject: Artificial Intelligence
Date: 15/03/2025

Assignment: Introduction to Mac"

[100%] "Rather than being explicitly programmed to perform a task, these systems use algorithms to parse data, learn from it, an"

[100%] "There are three main types of machine learning."

[100%] "Supervised learning involves training a model on labeled data, where the correct output is known."

[100%] "The model learns the mapping between inputs and outputs and can then predict outputs for new inputs."

[100%] "Common algorithms include linear regression, decision trees, and support vector machines."

[100%] "Unsupervised learning deals with unlabeled data."

[100%] "The goal is to find hidden patterns or structures in the data."

... and 17 more matched sentences

Pair 2: student_B.txt <-> student_E.txt

SUSPICIOUS

Combined Score: 74.15%

- TF-IDF Cosine: 70.80%
- N-gram Jaccard: 53.25%
- Structural: 99.69%
- Writing Style: 99.33%

Likely original: student_B.txt

Likely copier: student_E.txt

Reason: student_B.txt modified 0.0h earlier; student_B.txt created first

Matched Sentences (23 found):

[95%] "Name: Priya Patel
Roll No: 2024CS115
Subject: Artificial Intelligence
Date: 16/03/2025

Assignment: Introduction to Mach"

[100%] "Rather than being explicitly programmed to perform a task, these systems use algorithms to parse data, learn from it, an"

[100%] "There are three main types of machine learning."

[100%] "Supervised learning involves training a model on labeled data, where the correct output is known."

[100%] "The model learns the mapping between inputs and outputs and can then predict outputs for new inputs."

[94%] "Common algorithms include linear regression, decision trees, and support vector machines."
[84%] "The goal is to find hidden patterns or structures in the data."
[100%] "Clustering algorithms like K-means and hierarchical clustering group similar data points together."
... and 15 more matched sentences

Pair 3: student_A.txt <-> student_E.txt

SUSPICIOUS

Combined Score: 74.15%

- TF-IDF Cosine: 70.80%
- N-gram Jaccard: 53.25%
- Structural: 99.69%
- Writing Style: 99.32%

Likely original: student_A.txt

Likely copier: student_E.txt

Reason: student_A.txt modified 0.0h earlier; student_A.txt created first

Matched Sentences (22 found):

[100%] "Rather than being explicitly programmed to perform a task, these systems use algorithms to parse data, learn from it, an"
[100%] "There are three main types of machine learning."
[100%] "Supervised learning involves training a model on labeled data, where the correct output is known."

[84%] "The goal is to find hidden patterns or structures in the data."
[100%] "Clustering algorithms like K-means and hierarchical clustering group similar data points together."
[92%] "Dimensionality reduction techniques like PCA help in reducing the number of features while retaining important informati"
... and 14 more matched sentences

5. Recommendations

Immediate Actions Required

- 1 document(s) flagged as COPIED - require immediate review
- Verify flagged pairs manually before disciplinary action
- Check if documents share the same source material legitimately

Further Investigation Needed

- 1 document(s) flagged as SUSPICIOUS - need manual review
- May indicate partial copying or shared references

Methodology Notes

This analysis uses a 4-layer similarity engine. While highly accurate, no automated system is perfect. False positives may occur when documents legitimately share common topic-specific terminology. Always verify results with manual review before taking action.

6. AI Writing Characteristics Analysis

IMPORTANT NOTE: This analysis estimates similarity to common AI-generated writing patterns. It does NOT prove that AI tools were used.

Resume Example 1_Google IT Support.pdf

Characteristics Score: 63%

Assessment: Strong AI-Like Writing Characteristics

Confidence: Medium

Sentence Cv: 87.00 | Word Cv: 77.00 | Norm Ttr: 83.00 | Transition Density: 62.00 | Repetition Ratio: 26.00 | Top10 Dominance: 6.00 | Norm Entropy: 68.00

- Section Analysis:
- Introduction: Insufficient data
 - Body: Insufficient data
 - Conclusion: Insufficient data

- Indicators:
- Sentence length uniformity: 0.36 (expected ~0.55 in human writing - unusually low, suggesting AI uniformity)
 - Word-count burstiness: 0.39 (expected ~0.50 in human writing - unusually low, suggesting AI uniformity)
 - Vocabulary richness: 3.41 (expected ~3.90 in human writing - unusually low, suggesting AI uniformity)

student_A.txt

Characteristics Score: 60%

Assessment: Strong AI-Like Writing Characteristics

Confidence: High

Sentence Cv: 73.00 | Word Cv: 64.00 | Norm Ttr: 64.00 | Transition Density: 50.00 | Paragraph Cv: 87.00 | Repetition Ratio: 28.00 | Para Word Cv: 81.00 | Top10 Dominance: 7.00 | Norm Entropy: 63.00 | Punct Cv: 75.00

- Section Analysis:
- Introduction: Insufficient data
 - Body: Strong AI-Like Writing Characteristics
 - Conclusion: Very Strong AI-Like Writing Characteristics

- Indicators:
- Sentence length uniformity: 0.45 (expected ~0.55 in human writing - unusually low, suggesting AI uniformity)
 - Paragraph structure uniformity: 0.39 (expected ~0.65 in human writing - unusually low, suggesting AI uniformity)
 - Paragraph length uniformity: 0.42 (expected ~0.60 in human writing - unusually low, suggesting AI uniformity)
 - Punctuation consistency: 0.54 (expected ~0.70 in human writing - unusually low, suggesting AI uniformity)

student_B.txt

Characteristics Score: 60%

Assessment: Strong AI-Like Writing Characteristics

Confidence: High

Sentence Cv: 73.00 | Word Cv: 64.00 | Norm Ttr: 64.00 | Transition Density: 50.00 | Paragraph Cv: 87.00 | Repetition Ratio: 28.00 | Para Word Cv: 81.00 | Top10 Dominance: 7.00 | Norm Entropy: 63.00 | Punct Cv: 75.00

- Section Analysis:
- Introduction: Insufficient data
 - Body: Strong AI-Like Writing Characteristics
 - Conclusion: Very Strong AI-Like Writing Characteristics

- Indicators:
- Sentence length uniformity: 0.45 (expected ~0.55 in human writing - unusually low, suggesting AI uniformity)
 - Paragraph structure uniformity: 0.39 (expected ~0.65 in human writing - unusually low, suggesting AI uniformity)
 - Paragraph length uniformity: 0.42 (expected ~0.60 in human writing - unusually low, suggesting AI uniformity)
 - Punctuation consistency: 0.54 (expected ~0.70 in human writing - unusually low, suggesting AI uniformity)

student_C.txt

Characteristics Score: 54%

Assessment: Strong AI-Like Writing Characteristics

Confidence: High

Sentence Cv: 72.00 | Word Cv: 69.00 | Norm Ttr: 29.00 | Transition Density: 50.00 | Paragraph Cv: 85.00 | Repetition Ratio: 12.00 | Para Word Cv: 79.00 | Top10 Dominance: 1.00 | Norm Entropy: 29.00 | Punct Cv: 73.00

Section Analysis:

- Introduction: Insufficient data
- Body: Strong AI-Like Writing Characteristics
- Conclusion: Strong AI-Like Writing Characteristics

Indicators:

- Sentence length uniformity: 0.45 (expected ~0.55 in human writing - unusually low, suggesting AI uniformity)
- Paragraph structure uniformity: 0.42 (expected ~0.65 in human writing - unusually low, suggesting AI uniformity)
- Paragraph length uniformity: 0.44 (expected ~0.60 in human writing - unusually low, suggesting AI uniformity)
- Punctuation consistency: 0.55 (expected ~0.70 in human writing - unusually low, suggesting AI uniformity)

student_D.txt

Characteristics Score: 53%

Assessment: Strong AI-Like Writing Characteristics

Confidence: High

Sentence Cv: 73.00 | Word Cv: 68.00 | Norm Ttr: 55.00 | Transition Density: 18.00 | Paragraph Cv: 86.00 | Repetition Ratio: 24.00 | Para Word Cv: 82.00 | Top10 Dominance: 6.00 | Norm Entropy: 56.00 | Punct Cv: 68.00

Section Analysis:

- Introduction: Insufficient data
- Body: Strong AI-Like Writing Characteristics
- Conclusion: Some AI-Like Writing Characteristics

Indicators:

- Sentence length uniformity: 0.45 (expected ~0.55 in human writing - unusually low, suggesting AI uniformity)
- Paragraph structure uniformity: 0.41 (expected ~0.65 in human writing - unusually low, suggesting AI uniformity)
- Paragraph length uniformity: 0.42 (expected ~0.60 in human writing - unusually low, suggesting AI uniformity)

student_E.txt

Characteristics Score: 61%

Assessment: Strong AI-Like Writing Characteristics

Confidence: High

Sentence Cv: 77.00 | Word Cv: 69.00 | Norm Ttr: 62.00 | Transition Density: 50.00 | Paragraph Cv: 87.00 | Repetition Ratio: 21.00 | Para Word Cv: 81.00 | Top10 Dominance: 5.00 | Norm Entropy: 60.00 | Punct Cv: 75.00

Section Analysis:

- Introduction: Insufficient data
- Body: Strong AI-Like Writing Characteristics
- Conclusion: Strong AI-Like Writing Characteristics

Indicators:

- Sentence length uniformity: 0.43 (expected ~0.55 in human writing - unusually low, suggesting AI uniformity)
- Paragraph structure uniformity: 0.39 (expected ~0.65 in human writing - unusually low, suggesting AI uniformity)
- Paragraph length uniformity: 0.43 (expected ~0.60 in human writing - unusually low, suggesting AI uniformity)
- Punctuation consistency: 0.54 (expected ~0.70 in human writing - unusually low, suggesting AI uniformity)

student_F.txt

Characteristics Score: 0%

Assessment: Predominantly Human Writing Characteristics

Confidence: Low (Text too s

Section Analysis:

- Introduction: Insufficient data
- Body: Insufficient data
- Conclusion: Insufficient data

Indicators:

- Insufficient text to analyze.

student_G.txt

Characteristics Score: 37% **Assessment: Some AI-Like Writing Characteristics** Confidence: Medium

Sentence Cv: 3.00 | Word Cv: 1.00 | Norm Ttr: 97.00 | Transition Density: 18.00 | Repetition Ratio: 52.00 | Top10 Dominance: 76.00 | Norm Entropy: 90.00

Section Analysis:

- Introduction: Insufficient data
- Body: Insufficient data
- Conclusion: Insufficient data

Indicators:

- Vocabulary richness: 2.83 (expected ~3.90 in human writing - unusually low, suggesting AI uniformity)
- Functional word dominance: 0.40 (expected ~0.35 in human writing - unusually high, a common AI pattern)
- Word distribution entropy: 0.82 (expected ~0.88 in human writing - unusually low, suggesting AI uniformity)
